Thanks Donn.

Anne, please let me know how to proceed.

Subject: RE: San Jacinto Question

Not sure how to respond to this. Providing community involvement for this site is provided site-wide, or for the overall site and affected communities. It is not broken down for the removal action, or remedial activities. The CAG meetings, multi-public meetings, fact sheets, talking to residents, research, placing signs, etc. are in response to the total site cleanup efforts.

Perhaps an allocation of time and effort, since 5/10 for all of the above activities including travel, could be a 25% -75% removal/remedial with obviously more time being spent on remedial outreach objectives.

Thanks.

Subject: San Jacinto Question

Donn – we are trying to put together the bill for the San Jacinto removal oversight costs. At this point, because we have an AOC for the removal, we can only bill for removal oversight, not the RI/FS oversight (which was under a UAO). Can you identify what of your time, travel, and contract assistance was related to the removal vs. remedial? The time period would start 5/17/10 (after the

9601579

removal AOC was signed). All of the money reimbursed will go into a special account for the site.

Thank you.
